Introduction

Welcome to E-Valley, the largest e-logistics park in Europe, located in Cambrai, France. Spanning 320 hectares, this innovative hub is dedicated to e-commerce, hybrid commerce, and warehousing. E-Valley boasts an approved building permit for 5,920,150 sqft of warehouses, with over 80% already constructed, and an additional 8,611,000 sqft reserved for future industrial and logistics projects. Strategically situated with direct access to the A2 and A26 highways, E-Valley offers exceptional connectivity for efficient logistics operations. The upcoming Seine-Nord Canal will further enhance E-Valley's status as a trimodal platform. Committed to sustainability, E-Valley is partnering with ENGIE to achieve carbon neutrality, underscoring its dedication to environmental standards. The park also features a comprehensive range of services, including training and recruiting centers, which support the development of a skilled workforce and foster local employment opportunities. By combining logistical advantages with a strong commitment to sustainability and innovation, E-Valley is poised to become the leading e-logistics hub in Europe, providing businesses with a modern, efficient, and fully integrated environment for their operations.

ESG Specifications

We aim to develop facilities to stand the test of time, whilst minimising the environmental impact on the communities they serve. This is achieved with the use of modern technologies, to reduce CO2 emissions, and the cost of occupation. Our logistics team has developed over 40 million square feet of premier, LEED/BREEAM-certified logistics space throughout the world, delivering state-of-the-art properties to meet our customers' needs without compromise.

Location

The site is ideally located just 1 kilometer from the A26 motorway, connecting Calais to Reims. The A26 intersects with the A1 motorway, providing easy access to major cities like Paris. Valenciennes is only 35 km away, Brussels is 140 km away, and both Antwerp and Paris are 180 km away. Additionally, the A2 highway links the E-Valley logistics hub to Northern Europe, significantly enhancing connectivity and logistical efficiency. This strategic position ensures excellent access to key destinations, making it highly advantageous for various needs.
